            <p>Hi! My name is Janko Stojkovic (96/20). I went to the
"First technical school" in Kragujevac. My desire for programming came in my first
year of high school when I actually first came in contact with c and c#. A year
later I was introduced to web programming and web design. I learned HTML, CSS and
JAVASCRIPT, I am also familiar with PHP.
            In the meantime a friend told me about ICT college, so I decided it was
the best decision I could make. With a high school diploma, I came to Belgrade to
continue my education and expand my knowledge of web development. I am a freshman
at the moment and I hope that everything will go well.</p>
